Guidelines for Ayurveda Practitioners for COVID-19 Patients in Home Isolation

Preamble
The COVID-19 pandemic can be considered as a public health challenge. The burden of the disease and mortality are steadily increasing with the emergence of newer variants throughout the globe. Effective management to address this infection is still evolving and attempts are being made to integrate traditional interventions along with standard care.

Home isolation is applicable to confirmed COVID-19 cases which are asymptomatic or have mild symptoms, or to people who have had contact with suspected COVID-19 cases. The clinical efficacy and safety of Ayurveda interventions included in this guideline have been demonstrated through robust research studies.

General Disclaimer
- Patients need to have a general consultation from a qualified physician before starting any intervention.
- In all severe cases, immediate referral to a higher medical centre as per the Government guidelines is advised.
- Patients with co-morbidities like hypertension, diabetes etc., are advised to continue their respective medications.
- Physicians may select interventions as per their own discretion.
- Use of drugs in vulnerable population is at the prudence of the consulting physician.
- Doses for children should be adjusted according to their age.
Management Guidelines for COVID-19 Patients in Home-Isolation

The common clinical features observed in mild COVID-19 cases include sore throat, mild fever, body-ache, nasal congestion, and dry cough. Although a variety of symptoms are being reported, many cases are asymptomatic and some uncommon clinical manifestations include loss of smell and taste.

Some of the asymptomatic cases can be in the pre-symptomatic stage. Considering this possibility, the patient should observe evolving symptoms or signs. This watchfulness should not lead to undue anxiety.

Specific measures for COVID-19 Patients in home isolation

<table>
<thead>
<tr>
<th>Stage/condition</th>
<th>Clinical Presentation</th>
<th>Medicine</th>
<th>Dosage*</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Asymptomatic COVID-19</strong></td>
<td></td>

<td>Nasal Congestion, Loss of taste</td>
<td>Vyoshadi vati</td>
<td>Chew 1-2 pills as required</td>
</tr>
</tbody>
</table>

*The Ayurveda physician can change the dose and duration considering requirement of the patient.

### General guidelines

1. Patients should follow physical distancing, respiratory and hand hygiene, and wear masks.

2. Gargle with warm water along with an added pinch of turmeric and salt. Water boiled with *Triphala* (dried fruits of *Emblica officinalis*, *Terminalia chebula*, *Terminalia bellirica*) or Yashtimadhu (*Glycyrrhiza glabra*) can also be used for gargling.

3. Nasal instillation/application of medicated oil (*Anu taila* or *Shadbindu Taila*) or plain oil (Sesame or Coconut) or of cow ghee (*Goghrita*), once or twice a day, especially before going out and after coming back home.

4. Steam inhalation with Ajwain (*Trachyspernum ammi*), Pudina (*Mentha spicata*) or Eucalyptus oil (1-5 drops) or Karpur (Camphor) once a day.

5. Frequent intake of water processed with Tulasi (basil leaves – *Ocimum tenuiflorum L.*Merr (synonym *Ocimum sanctum* L.) is advised.

6. Adequate sleep (7-8 hours) should be taken and day time sleep preferably be avoided.
Dietary guidelines

1. Drinking of warm water or water boiled with herbs like Saunth (Zingiber officinale), Dhania (Coriandrum sativum), Tulasi (Ocimum sanctum), or Jeera (Cuminum cyminum) seeds.
2. Food should be freshly prepared, and easily digestible.
3. Drinking of Golden Milk (Half tea spoon Haldi (Curcuma longa) powder in 150 ml hot milk) once at night. The same should be avoided in case of indigestion.
4. Diet may be advised as per “Ayush recommendations for the public on holistic health and well-being- Preventive measures and care during COVID-19 & Long COVID-19” issued by the Ministry of Ayush.

*These suggested guidelines are supported by Ayurvedic literature, scientific publications and evidence based on COVID-19 studies undertaken by the Ministry of Ayush.
